Welcome to LightWave TV

light up your life
Dear EATEL Customer,

Thank you for choosing LightWave TV from EATEL. LightWave TV will open a whole new world of TV entertainment for you and your family. This user guide will help you learn more about all the great features LightWave TV has to offer. Please keep it in a safe place for future reference.

About This User Guide
This User Guide describes the LightWave TV Interactive Program Guide, Video On Demand, LightWave Voice, Parental Control, remote controls, and Multi-Room DVR service. Additional information about your remote control can be found in the instruction manual that came with it.

Contacting Customer Service
As always, EATEL’s friendly staff of local customer care professionals are ready to answer any questions you may have about your LightWave TV service. If you need any assistance, call 621-4300 or visit www.eatel.com/contactus.

User Equipment

The equipment provided by EATEL delivers LightWave TV service to your home or business and connects to most entertainment devices.
Set-Top Box Safety Information

Refer all servicing to qualified service personnel. Servicing is required when the equipment has been damaged in any way, such as a power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the equipment, the equipment has been exposed to rain or moisture, does not operate normally, or has been dropped.

Power Source Warning
A label on this product indicates the correct power source for this product. Operate this product only from an electrical outlet with the voltage and frequency indicated on the product label. If you are uncertain of the type of power supply to your home or business, consult your local power company.

The AC inlet on the unit must remain accessible and operable at all times.

Ground the Product
WARNING: Avoid electric shock and fire hazard! If this product connects to cable wiring, be sure the wiring is grounded (earthed). Grounding provides some protection against voltage surges and built-up static charges.

Protect the Equipment from Lightning
In addition to disconnecting the AC power from the wall outlet, disconnect the signal inputs.

Verify the Power Source from the On/Off Power Light
When the on/off power light is not illuminated, the equipment may still be connected to the power source. The light may go out when the equipment is turned off, regardless of whether it is still plugged into an AC power source.
Eliminate AC Mains Overloads

**WARNING:** Avoid electric shock and fire hazard!
Do not overload AC mains, outlets, extension cords, or integral convenience receptacles. For products that require battery power or other power sources to operate them, refer to the operating instructions for those products.

Provide Ventilation and Select a Location

- Remove all packaging material before applying power to the equipment.
- Do not place this equipment on a bed, sofa, rug, or similar surface.
- Do not install this equipment in an enclosure, such as a bookcase or rack, unless the installation provides proper ventilation.
- Do not place entertainment devices (such as VCRs or DVDs), lamps, books, vases with liquid, or other objects on top of this equipment.
- Do not block ventilation openings.

Protect from Exposure to Moisture and Foreign Objects

**WARNING:** Avoid electric shock and fire hazard!
Do not expose this equipment to dripping or splashing liquids, rain or moisture. Objects filled with liquids, such as vases, should not be placed on this equipment.

**WARNING:** Avoid electric shock and fire hazard!
Unplug this equipment before cleaning. Do not use a liquid cleaner or an aerosol cleaner. Do not use a magnetic/static cleaning device (dust remover) to clean this product.

**WARNING:** Avoid electric shock and fire hazard!
Never push objects through the openings in this equipment. Foreign objects can cause electrical shorts that can result in electric shock or fire.
**WARNING:** Avoid electric shock and fire hazard! Do not open the cover of the equipment. Opening or removing the cover may expose you to dangerous voltages. If you open the cover, your warranty will be voided. This equipment contains no user-serviceable parts. Refer all servicing to qualified service personnel. Servicing is required when the equipment has been damaged in any way, such as a power-supply cord or plug is damaged, liquid has been spilled or objects have fallen into the equipment, the equipment has been exposed to rain or moisture, does not operate normally, or has been dropped.

**Check Equipment Safety**

Upon completion of any service or repairs to this equipment, the service technician must perform safety checks to determine that this equipment is in proper operating condition.

**Protect the Equipment When Moving It**

Always disconnect the power source when moving the product or connecting or disconnecting cables.
Universal Remote Control

Device Control
- **Power** turns devices on or off.
- **STB** enables set-top mode functions.
- **TV** enables TV mode functions.
- **DVD** enables DVD mode functions.
- **AUX** enables AUX mode functions.

DVR, VOD, DVD, VCR Control

Notes:
- In STB mode, these keys control DVR and VOD functions.
- In DVD and AUX modes, these keys may control your DVD or VCR depending on how you have programmed the remote.

- **Record** records the selected program.
- **Stop** stops DVD, VCR, VOD, or DVR content.
- **Pause** pauses DVD, VCR, VOD, or DVR content.
- **Play** plays DVD, VCR, VOD, or DVR content.
- **Rewind or FF** rewinds or fast forwards through DVR or VOD content.
- **Rewind or Skip** skips backward or forward through DVR or VOD content.

Scrolls through available TV or video input sources.
Viewing and Browsing Control

- Accesses the Video On Demand menu.
- Returns to previous screen.
- Accesses the Menu Screen.
- Accesses the DVR list of recordings.
- Enables Interactive mode.
- Moves through selections.
- Selects and deselects screen items.
- Returns from menu screens and to viewing TV or video.
- Selects options in menus and the program guide.
- Displays text information about the selected programs or closes the IPG.

Sound Control

Note: These keys are assigned to the TV when the TV mode key is programmed with a valid code.

- Adjusts volume.
- Mutes sound.

Numeric Keys

- Enters channel numbers, text, and remote codes. Also use to enter your parental control PIN.
- Clears text and numbers in text fields.
- Enters and saves (stores) and entry. Sizes the picture for some high-definition television (HDTV) models.
Using the Menu Screen

The Menu Screen provides access to the features of your LightWave TV service.

Using the Menu Screen ............................................ 11
Menu Navigation Tips ............................................. 12
Main Menu Screens ................................................. 13
Using the Menu Screen

The Menu screen provides access to all the features of your TV service. To display and use the menu screen:

1. Press **MENU**.
2. Use the **UP** and **DOWN** arrow buttons to select a heading on the vertical menu bar.
3. Press **OK** to select the item.
4. Press **MENU** or **EXIT TO TV** to close the menu screen.
Menu Navigation Tips

Before accessing your on-screen menus, it’s helpful to know how to choose, select and exit from the menu screens.

- Use the **LEFT** and **RIGHT** arrow buttons to access menus.
- Use the **UP** and **DOWN** arrow buttons to select items in the vertical menus that appears on the left or right of the screen.
- Press **OK** to activate your selected item.
- Press **BACK** to return to the last menu screen that you were viewing.
- Press **EXIT TO TV** to dismiss the screen and return to your TV program.
Main Menu Screens

- Press the **Menu** button to access the menu.
- Select **Search** to activate the program search feature. See p. 18 for more information.
- Select **Guide** to access the Guide.
- Select **Recorded TV** to view a list of all the programs you have recorded on your DVR. See p. 22 for more information.
- Select **Video On Demand (VOD)** to access the video library or watch a program you’ve already rented. See p. 32 for more information.
- Select **Stingray Music** to access over 50 music channels in your Stingray Music application.
- Select **Applications** to access the interactive applications available. See p. 48 for more information.
- Select **Settings** to customize your menu and guide settings, set language preferences and more. See p. 45 for more information.
Using the Interactive Program Guide (IPG)

Use the program guide to find and select TV programs, recorded shows and Video On Demand content.

Find and Watch a Program

1. Press **GUIDE**.

2. Use the **CH/PG** button and the **UP** and **DOWN** arrow buttons to scroll vertically through the program guide.

3. Use the **RIGHT** and **LEFT** arrow buttons to scroll horizontally through the program guide hourly.

4. Use the **REW** and **FF** buttons to scroll through the program guide at day intervals.

5. Press **OK** to watch the selected program. If it is not currently on, a Program Info screen will appear.
   
   - Press **RECORD EPISODE** to record the program. Learn more about recording on p. 22.
   
   - Press **RECORD SERIES** to record all episodes in the series. Learn more about recording on p. 22.
   
   - Press **MORE SHOWTIMES** to view additional episode times.

6. Press **EXIT** to close the guide panel.
1. Press the **DOWN** arrow button under **BROWSE** to display the browse panel.

2. Press the **UP** and **DOWN** arrow buttons to browse programs currently airing on other channels.

3. Press the **RIGHT** arrow buttons to browse future programs on the selected channel.

4. Press **OK** to watch the selected program. If it is not currently on, a Program Info screen will appear.
   - Press **RECORD EPISODE** to record the program. Learn more about recording on p. 22.
   - Press **RECORD SERIES** to record all episodes in the series. Learn more about recording on p. 22.
   - Press **MORE SHOWTIMES** to view additional episode times.

5. Press **EXIT** to close the browse panel.

6. To access recently viewed channels press the **UP** arrow button.

7. Press the **RIGHT** and **LEFT** arrow buttons to select channels.

8. Press **OK** to watch the selected channel.
The program info screen displays information about a selected program and enables you to perform various actions such as recording or watching the program.

**Get information about the program you are watching:**

1. Press **INFO**. The program info screen appears with a short description of the program, including running time.

2. Use the **RIGHT** arrow to view information about the cast and crew, to change the language and to turn on subtitles.

3. To watch the program, record the program, to set up a series recording or to view more showtimes, use the **DOWN** arrow and press **OK** to select the desired action. See p. 22 for more information about recording programs.

4. Press **EXIT TO TV** to return to the program you were watching.
Search for Programs

Find programs using the Search screen by entering the program title or names of people associated with the program you want to watch.

1. Press **MENU**, select **Search** and then press **OK**.

2. To enter your search term, use the arrow buttons to select a letter on the onscreen keyboard, and press **OK**.

   To enter a number, select **123** and press **OK** to bring up a number keypad. Select **ABC** and press **OK** to return to the regular keyboard.

3. A list of results appears as you type. The more letters you enter, the narrower the results.

4. Press the **RIGHT** arrow repeatedly to tab over to the results list.

5. Highlight a title or name using the **UP** or **DOWN** arrow buttons, and press **OK** for more options.

   • If you select a title, the program air times are displayed. You can watch it now if it’s currently on, record the program or view more showtimes. See p. 22 for more information about about recording programs.
Narrowing Your Search

1. From the Search screen, use the arrow buttons to select Options on the onscreen keyboard. Press OK.

2. From Filter Results, choose Titles, Video On Demand (VOD), Cast & Crew or Channel depending on what you are searching for. Press OK.

3. Enter your search term and select a program as described on p. 18.

• Select a title to view details. Press OK to watch or record the program.

• If “VIDEO ON DEMAND” appears next to the title, the program is available on Video On Demand. You can watch a preview or rent the program.
Digital Video Recorder

With DVR service, you can pause, rewind and restart live TV, record current shows, record an individual show or a series of episodes, schedule future shows to record and watch recorded shows at any time.

You can also:

• Record up to 4 shows at once and watch them from any room in your house.
• Start watching in one room, pause, and finish watching in another.

Control Live TV .................................................. 21
Record TV Programs ........................................ 22
View a List of Scheduled Recordings ................. 25
View a List of All Recorded Programs ................. 26
Watch a Recorded Program ............................... 27
Delete Existing Recordings ................................ 28
Control Live TV

1. To temporarily stop a live TV program, press **PAUSE**.

2. A progress bar will appear onscreen, showing how much time has elapsed and time until play resumes. The action will freeze up to 90 minutes.

3. Press **PLAY** at any time to restart the program from where you left off.

    *Also:

    • Press **FF** on the remote control to fast-forward continuously. Press **FF** two or three times to advance at increasing speeds. Press **SKIP** to fast-forward in 30-second increments. A progress bar will appear to indicate how far you can go forward and backward in the program.

    • Press **REW** on the remote control to rewind continuously. Press **REW** two or three times to rewind at increasing speeds. Press **REPLAY** to skip backward in 7-second increments. A progress bar will appear to indicate how far you can go forward and backward in the program.

**Tip:** If you don’t think you’ll be able to return to the program in 90 minutes, simply press record to begin recording.
Record TV Programs

Record the program you are watching:

1. Press RECORD to begin immediately recording the program you’re watching.

2. The message “Recording” will appear onscreen. The RECORDING light on your set-top box will turn red and remain on while the program is recording.

3. Recording will stop at the program’s scheduled end time. Press STOP to end the recording at any time. Press OK to confirm.

4. The recording will be saved under its program title. See View a List of All Recorded Programs on p. 26 for information on how to play recorded shows.

NOTE: The Recording feature is not available with Video On Demand (VOD) or Pay Per View.

What can you watch while recording?

You can record up to four programs on different TVs at the same time. So you can record up to four programs and watch a fifth previously recorded program, or watch one of the four programs you are recording.
Record a single program or series from the Guide:

1. Press **GUIDE**. Use the arrow buttons on your remote to scroll through and highlight a program.

2. Press **RECORD**. A red dot appears next to the program title to indicate that a recording is scheduled.

3. Press **RECORD** twice to schedule a series recording. Three red dots will appear next to the program title.

4. Press **RECORD** a third time to cancel the recording. The red dots will disappear.

5. Press **EXIT TO TV** to return to your last viewed channel.

Record a single program from the Program Info screen:

1. Access the program info screen:
   - Press **INFO** when tuned to a program you want to record, OR
   - Press **GUIDE**. Use the arrow buttons to highlight a program you want to record and press **INFO**.

2. Select **Record Episode** and press **OK**.

3. To add time in case the program runs long, highlight **Stop Recording**. Press **OK**. Select a time and press **OK**.

4. Select **Record**, then press **OK**.
Record a series from the Program Info screen:

1. Access the program info screen:
   - Press INFO when tuned to a program you want to record, OR
   - Press GUIDE. Use the arrow buttons to highlight a program you want to record and press INFO.

2. Select Record Series and press OK.

3. Use the arrow buttons to select Time. Press OK.

4. You can limit the recordings to:
   - Any day (at the scheduled time)
   - Any day/anytime
   - Any day/anytime/once per day

5. Select Show Type if you want to limit it to first run only. Otherwise, your DVR will record every episode.

6. To add time in case the program runs long, select Stop Recording. Press OK. Select a time and press OK.

7. Select Record, then press OK.
View a List of Scheduled Recordings

You can view the list of Scheduled Recordings from any TV in your home with a set-top box.

1. Press **MENU**, select **RECORDED TV**, press **OK**, and then **SCHEDULED**. Or, press the **RECORDED TV** button on your remote as a shortcut.

2. Use the **RIGHT** arrow to select **Scheduled**. Press **OK**.

   The recorded TV screen lists upcoming recordings in the order in which they will be recorded.

3. Use the arrow buttons or **CH/PG** to scroll through the listings.

4. To view only the scheduled series, use the **RIGHT** arrow to select **Series**.
You can view the list of Recorded Programs from any TV in your home with a set-top box.

1. Press **MENU**, select **RECORDED TV** and then press **OK**. Or, press the **RECORDED TV** button on your remote as a shortcut.

2. The recorded TV screen lists your available recordings by date, starting with the most recent.

3. To view the list by title, use the **RIGHT** arrow to select **By Title**.

4. Use the arrow buttons to scroll through the list.
You can watch a recorded program from any TV in your home with a set-top box.

1. Press **MENU**, select **RECORDED TV** and then press **OK**. Or, press the **RECORDED TV** button on your remote as a shortcut.

2. Use the arrow buttons to select the program you would like to watch. Press **OK**.
   - Press **Play** to watch the program.
   - Select **Resume Play** to continue watching the program where you left off.
   - Press **Stop** at any time. The stopped screen appears.

3. When a recording is finished playing, the finished screen appears.
   - Select **Start Over** to watch the program again from the beginning.
   - Select **Erase** to delete the program permanently.
   - Select **Recorded TV** to return to the recorded programs list.
   - Select **Watch Live TV** to return to live TV.
Delete Existing Recordings

Manually deleting unwanted recordings from your DVR ensures that you keep what you want. Otherwise, older programs are erased automatically to make room for new recordings when the DVR storage limit is reached.

You can delete an existing recording from any TV in your home with a set-top box.

1. Press **MENU**, select **RECORDED TV** and then press **OK**. Or, press the **RECORDED TV** button on your remote as a shortcut.
2. Highlight the program to erase, then press **OK**.
3. Select **Erase**, then press **OK**.
4. Repeat to confirm.

Protect a Recording from Being Automatically Deleted

1. Press **MENU**, select **RECORDED TV** and then press **OK**. Or, press the **RECORDED TV** button on your remote as a shortcut.
2. Highlight the recording you would like to protect and press **OK**.
3. Highlight **Keep Until**, then select **Keep until space needed** or **Keep until I erase**.
4. Press **OK**.
Video On Demand (VOD) gives you access to a library of hundreds of hours of movies, events, programs and special features. Just like a DVD, you can also pause, rewind, fast forward and watch the programming as many times as you like within the rental period.

Access the Video On Demand Screen .................. 30
Rent Video On Demand Titles .......................... 31
Play Your Current Rentals ................................. 32
Subscription & Premium Video On Demand ........... 33
Access the Video On Demand Screen

- Press **Video On Demand** on your remote control, OR
- Press **MENU**, select **On Demand** and then press **OK**.
- Use the **UP** and **DOWN** arrow buttons to select your desired category.

**Tip:** Change the view of your Video On Demand menu from list view to grid view by selecting **DISPLAY STYLE**.
Rent Video On Demand Titles

1. Access the Video On Demand screen.
2. Use the **UP** and **DOWN** arrows to go to a video category.
3. Use the **RIGHT** and **LEFT** arrows to select a video or subcategory.
4. Select the program you want to rent and press **OK**.
   - A Program Info screen appears and enables you to watch a preview or rent the program.
5. Select **Rent** and press **OK**. Press **OK** again to confirm.

Looking for something specific? Select **Search** from the Video On Demand menu then press **OK**. To learn how to search by title see page 18. Or to browse categories like Action and Family, select **Movies**, then **All Movies**, press **OK** and use the arrow buttons to select a category.

**Note: If using the Grid view option:**

1. Use **UP** and **DOWN** arrow buttons to select a video category.
2. Use **RIGHT** arrow button to access videos and **UP** and **DOWN** arrow buttons to change subcategories.
Play Your Current Rentals

Your rentals are available for you to watch at any time during the rental period.

1. Access the Video On Demand screen and select My Videos.
2. Use the RIGHT arrow to select the category and the DOWN arrow to select the video that you want to watch. Press OK.
3. Select Resume or Start Over then press OK.
You have access to additional VOD programming when you subscribe to a subscription VOD package or a premium movie channel suite (such as HBO®).

1. Access the Video On Demand screen and select **Premium**.

2. A list of **Categories** will appear. Use the **RIGHT** arrow to select the category and program you want to watch. Press **OK**.

*Note: If using the Grid view option:*

1. Use **RIGHT** arrow button to access videos and **UP** and **DOWN** arrow buttons to change premium channels.

2. Use **LEFT** and **RIGHT** arrow buttons to select program.
The Favorites screen is a customized program guide that contains only the channels and programs you have chosen. When you do not want to look through the full Interactive Program Guide (IPG) for a program, you can use the Favorites screen instead.

**Favorite Channels**

- Set-up or Revise a List of Favorites ......................... 35
- Use a Favorite Channels List .................................. 36
- Hide and Show Channels in the Guide ..................... 37
1. Press **MENU**.
2. Use the **DOWN** arrow to select **Settings** and then press **OK**.
3. Select **Television** then press **OK**.
4. Select **Set up Favorites** then press **OK**.
5. Use **UP** and **DOWN** arrow buttons to select **My Favorites** or **Set up a new list**.
6. Use the **UP** arrow, **DOWN** arrow and **OK** buttons to scroll through the list and select channels.
7. Channels that have a check mark in the box are included in your favorite channels list.
   - To add a channel to the list, highlight the unchecked box (the check mark will appear) and press **OK**.
   - To delete a channel from the list, highlight the checked box (the check mark will disappear) and press **OK**.
8. Once you have made your selections, select **Save**.
Use the Favorite Channels Screen

1. Press **RIGHT** arrow button to access **Viewing Options** menu.

2. Select **Favorites List**, use the **DOWN** arrow to select **Favorites** then press **OK**.

3. The **Favorites** screen will appear. When the guide is accessed, use it as you would the regular guide.
Hide and Show Channels in the Guide

You can select which channels you want to appear in the interactive program guide (IPG).

1. Press MENU.
2. Use the DOWN arrow to select Settings, then press OK.
3. Select Television then press OK.
4. Select Customize Channel Guide and then press OK.
5. Channels that have a check mark in the box are currently displayed in the guide.
   - To hide a channel, highlight the checked box (the check mark will disappear) and press OK.
   - To make a hidden channel reappear, highlight the unchecked box (the check mark will appear) and press OK.
6. Select Save and press OK.
Parental Controls allow you to lock programs that may be unsuitable for younger viewers. Activating the Parental Controls feature involves creating a locking PIN (a 4-digit number) and enabling lock settings. Once Parental Controls have been activated, locked programs can only be viewed by entering the PIN.

1. Press **MENU**.

2. Use the **DOWN** arrow to select **Settings** and then press **OK**.

3. Use the **RIGHT** arrow to select **Parental Controls** and then press **OK**.
   - A lock appears next to **Parental Locking** if a PIN is already set and locks are on.
   - An open lock means that a PIN is set but no parental locks are in effect.
   - No lock means that no PIN has been set.

4. Select **Parental Locking** and press **OK**.

5. Enter the default PIN - 0000.

6. Re-enter the PIN to confirm. The **Parental Locking Settings** screen appears with all of your locking options.

7. Use the **RIGHT** arrow to select **Change PIN**.

8. Enter a new 4-digit PIN. Re-enter the PIN to confirm.
Lock Specific Channels

1. Open the Parental Locking Settings screen.
2. Use the DOWN arrow to select Change beneath Channels. Press OK.
3. Use the UP and DOWN arrow buttons to select channels in the list.
   - Press OK to lock a channel. A lock symbol will appear. Press OK again to unlock it.
   - To unlock all channels, use the LEFT arrow to select Unlock All. Press OK.
   - To view only the locked channels, select View Locked Only.
4. Select Save and press OK.
5. If you are finishing setting parental locks, select Lock. Press OK then EXIT TO TV.
1. Open the Parental Locking Settings screen.

2. Use the DOWN arrow to select Change beneath US TV Parental Guidelines. Press OK.

3. Select the lowest rating you want to lock.
   - Press OK to lock programs with that rating and higher.
   - To unlock all ratings, use the LEFT arrow to select Unlock All. Press OK.

4. Select Save and press OK.

5. If you are finished setting parental locks, select Lock. Press OK then EXIT TO TV.
Lock Adult Content

1. Open the Parental Locking Settings screen.
2. Use the DOWN arrow to select Change beneath Adult Programs.
3. Press OK. The lock symbol will appear.
4. Select Save and press OK.
5. If you are finished setting parental locks, select Lock. Press OK then EXIT TO TV.
1. Open the Parental Locking Settings screen.
2. Use the arrows to select Change beneath Rentals. Press OK.
3. Use the RIGHT arrow to select Lock Renting and press OK. A lock symbol appears. (Press OK again to clear the lock.)
4. Use the LEFT arrow to select Save. Press OK.
5. If you are finished setting parental locks, select Lock. Press OK then EXIT TO TV.

NOTE: When VOD rentals are locked, you will be required to enter your Parental Locking PIN to rent a video.
Watch a Locked Program

1. When a **locked program screen** appears, press **OK**.

2. Enter your 4-digit **PIN** at the prompt.

3. Use the **UP** and **DOWN** arrow buttons to select the unlocking option and press **OK**.
   - To unlock the program and begin watching it immediately, select **Unlock This Program**. The program remains unlocked until it ends, then the program re-locks.
   - To unlock all programs temporarily, select **Unlock All TV for 4 hours**.

**NOTE:** If you have set up Video On Demand locking, you must still enter the PIN to rent VOD programs.

Change the Aspect Ratio for Widescreen or HDTV

1. Press MENU.
2. Select Settings, press OK, then select Television. Press OK.
3. Select Aspect Ratio and High Definition. Press OK.
4. Use the UP or DOWN arrows to choose from
   • 1080p High Definition (HD)
   • 1080i High Definition (HD)
   • 720p High Definition (HD)
   • Standard Definition
5. Press OK. Select Continue and press OK again.

Set Language Preferences

Change the language you hear
Some TV programs have an optional Spanish-language audio track. You can set programs to automatically switch to Spanish when available (this feature does not work if you are watching a recorded program).
1. Press MENU.
2. Select Settings, press OK, then select Audio. Press OK.
3. Select Secondary Audio. Press OK.
4. Select Use Secondary Audio if Available. Press OK.
5. Select Save and press OK.

Change the on-screen menu language
1. Press MENU.
2. Select Settings, press OK, then select Audio. Press OK.
3. Select Audio language. Press OK.
4. Highlight the language you want to use and press OK.
5. Select Save and press OK.
**Turn Sound Effects On/Off**

The clicks that accompany the selections in the on-screen menus can be easily turned on or off.

1. Press **MENU**.
2. Select **Settings**, press **OK**, then select **General**. Press **OK**.
3. Select **System Sound Effects**. Press **OK**.
4. Select **Play sound effects** or **Mute sound effects**. Press **OK**.
5. Select **Save** and press **OK**.

**Change the Digital Audio Output**

1. Press **MENU**.
2. Select **Settings**, press **OK**, then select **Audio**.
3. Select **Digital Audio Output**. Press **OK**.
4. Select **Stereo** or **Surround Sound**.
5. Select **Save** and press **OK**.
Applications

The Applications menu provides access to interactive applications that are free or available for purchase.

</table>
Using Applications

1. Press MENU.
2. Select Applications, then press OK.
3. Choose the application you wish to access. Press OK.
4. Each application will display automatically or provide on-screen instructions once accessed.
Weather Application

1. Press MENU.
2. Select Applications, then press OK. Select Weather then press OK.
3. Select Local Weather.
4. To remove the weather app press the EXIT TO TV button.

Incoming Calls

Incoming calls will appear on your TV screen for approximately 15 seconds.
View your TV Caller ID History

1. Press MENU.
2. Select Applications, then press OK.
3. Select Phone Services, then press OK.
4. Select Lightwave Voice, then press OK.
5. Use the UP and DOWN arrow buttons to view calls.

Tip: Missed calls will appear in blue text, answered calls will appear in white.
Disable the Caller ID Feature

1. Press MENU.
2. Select Applications, then press OK.
3. Select Phone Services, then press OK.
4. Select Lightwave Voice, then press OK.
5. Press MENU to access Settings.
6. Press the RIGHT arrow button to select the bell icon, then press OK.
7. Use the LEFT arrow button to select the exit arrow button to exit Settings.
Using Your Call Back Feature

You can make a call right from your TV with our call back feature. Once the phone call is triggered on your TV, your phone will ring.

1. Press MENU.
2. Select Applications, then press OK.
3. Select Phone Services, then press OK.
4. Select Lightwave Voice, then press OK.
5. Use your UP and DOWN arrow buttons to view calls.
6. Press the RIGHT arrow button to select the phone icon, then press OK.
7. Pick up your phone once it rings.
Using Visual Voicemail

1. Press **MENU**.
2. Select **Applications**, then press **OK**.
3. Select **Phone Services**, then press **OK**.
4. Select **Lightwave Voice**, then press **OK**.
5. Press **MENU** to access Settings.
6. Use your **UP** and **DOWN** arrow buttons to view calls.
7. Press the **RIGHT** arrow button to select the mail icon, then press **OK** to listen to your voicemail.
8. To delete the voicemail use your **RIGHT** arrow button to select the trash icon, then press **OK**.
Frequently Asked Questions

**Will the DVR record on more than one TV in my home?**
Yes; with the multi-room DVR feature, any TV with a STB can record and watch programs on the DVR.

**Can you record with the DVR and watch another channel?**
Yes; you can have up to four channels recording (SD or HD), and while watching a fifth program that has already been recorded.

**Can parental locking be used with Video On Demand (VOD)?**
Yes; once you set up a PIN, parental controls can be used for Video On Demand (VOD). All rentals will require the use of a PIN. Please remember to keep your PIN in a safe place because the PIN-reset process is not immediate, and parental control functionality will experience downtime.

**If a program is locked do I need a PIN to record it?**
You do not have to enter a PIN to schedule recordings for programs locked by the parental locking feature, but viewers do have to enter a PIN to watch the program while it’s recording or to view it at any time thereafter.

**Why do I need a residential gateway unit?**
This professionally installed device enables the distribution of Lightwave TV and wireless Internet home networking, which lets you connect to the Internet and to other devices such as printers without wires anywhere in your home, at the same time.

**Whom should I contact if there is a disruption in my TV service?**
You should call 225-621-4300 to report connection problems or visit our website at www.eatel.com/support and click “Report a Problem”.

**Can you record with the DVR and watch another channel?**
Yes; you can have up to four channels recording (SD or HD), and while watching a fifth program that has already been recorded.
Troubleshooting

The Set-Top Box (STB) won’t turn on.
Check that the STB is plugged in. If it is, try plugging another device into the socket to make sure power is flowing to it. If the power is working, there may be something wrong with your remote control.

The remote won’t control the STB.
Press the STB button on the top left of the remote control to manage the EATEL STB.

There is video but no sound.
First, check to see if the volume is muted by pressing MUTE or + on the VOL button. Try changing the channel to see if the problem is only with one channel. If your system uses standard video or S-video connectors, be sure that you have connected the audio-out jacks on the receiver to the audio-in jacks on your TV or audio receiver.

Sound is good but picture is poor.
Check the connections of your video cables to make sure they are properly seated in their jacks. Also, try changing the channel to be sure that the problem is not just on one channel. If you have no connection after five minutes, make sure all the connections to your STB are secure.

The STB will not respond.
The green LED surrounding the STB’s power button should flash each time a remote button is pressed. If this happens, but the STB does not respond to your commands, you may need to perform a restart. To restart your STB, press and hold the POWER button for five seconds. If you are still experiencing problems, call customer support at 225-621-4300 or visit our website at www.eatel.com/support and click “Report a Problem”.

The remote is not working.
Make sure nothing is in the path between the remote and the remote sensor on the STB. Be sure you are aiming your remote at the STB. If these steps do not solve the problem, try replacing the batteries in your remote.
